Job Application Solutions Architect

Dear Hiring Manager,

from your web site I note with interest that you are hiring and I hereby wish to apply for the position of Solutions Architect.

During my professional career as Competence Center Leader I have gained considerable experience in development and consulting projects from requirements engineering to implementation, especially with mobile application systems. In my previous roles I have been responsible for team building, project management in client-facing roles, stakeholder management, architecture of mobile applications with strong legacy system integration with state-of-the-art technology and frameworks.

In my operative and strategic roles in IT projects I cover all areas from ideation, analysis of digital business, inception and coordination of digital product roadmaps, requirements engineering and project management. Here, I utilize a toolbox with methods and technologies in early project scoping, established techniques and tools in requirements engineering, frameworks and tools in collaboration as well as modern software architectures and frameworks.

Now, I am inspired to pursue my interests for innovation at Vivy GmbH and I am eager to take on new responsibilities in a challenging role.

I look forward to meeting you in person and hope to hear from you soon. Please let me know if you require any additional information.

Yours sincerely,

Dr. Tobias Griebel
