

Dr. Tobias Griebe

HEAD OF ENGINEERING · AI STRATEGY & DEVELOPER VELOCITY

Goethestraße 10 · 15345 Eggersdorf · +49 159 06303187 · griebe.tobias@gmail.com
LinkedIn · Xing

PhD computer scientist and engineering leader with over 8 years of experience in the strategic and disciplinary leadership of complex software engineering organisations. I create environments where technical excellence and operational effectiveness go hand in hand — through rigorous value stream optimisation from idea to production, targeted use of AI-driven development processes, and a leadership culture of psychological safety and direct feedback.

CORE COMPETENCIES

ENGINEERING LEADERSHIP & CULTURE

Disciplinary leadership up to 50+ people · Engineering Manager
Coaching · Psychological Safety & Feedback Culture · Ownership & Continuous Improvement · Career Framework & Performance Management

TECHNOLOGY & ARCHITECTURE

Java / Spring Boot · Kubernetes / Docker · AWS · Red Hat OpenShift · React · CI/CD · Multi-tenant System Architecture · API-first · Microservices

AI & DEVELOPER VELOCITY

AI-Assisted Coding · LLM Workflow Integration · Developer Experience (DevEx) · DORA Metrics & Performance Indicators · Value Stream Optimisation · Cognitive Load & Team Autonomy

STRATEGY & STAKEHOLDERS

IT Roadmaps & OKRs · Application Landscape Modernisation · Interface Management (Product, Customer Care, Management) · Agile Governance & Value Streams

PROFESSIONAL EXPERIENCE

Head of Consulting · Cloudfactory GmbH Dec 2025 – present
Strategic consulting on scalable developer platforms and AI-driven engineering processes, including at **50Hertz Transmission GmbH / Elia Group**. Supporting the integration of AI-assisted coding workflows and LLM-based development processes to measurably increase developer velocity; platform strategy design, delivery management and executive-level client communication.

Engineering Director · sevDesk GmbH, Offenburg Feb 2023 – Nov 2025
Strategic and disciplinary overall responsibility for two R&D pillars (Platform Engineering and Growth & Retention) with **6 Engineering Managers and 40+ engineers**. Established a leadership culture of psychological safety and a company-wide career framework. Introduced AI-assisted developer tools (AI-Assisted Coding, automated pipelines) to measurably increase developer velocity; DORA metrics as the basis for delivery performance measurement. Led the cloud modernisation programme (Kubernetes/Docker on AWS) with a consistent DevSecOps approach.

Head of Software Development & Platform Architecture · Würth Cloud Services GmbH Apr 2021 – Jan 2023
Led the modernisation of a complex IT application landscape within the Würth Group corporate context. Transformed individual system components into scalable, multi-tenant platform solutions (Red Hat OpenShift, Kubernetes, Java / Spring Boot). Built cross-functional engineering teams with clear ownership along the service architecture.

Head of Competence Centre Digitalisation Consulting · adesso SE, Dortmund Nov 2017 – Aug 2019
Strategic IT consulting for enterprise clients: cloud-native microservices platform architecture design (Java Spring Boot, Docker, Kubernetes), value stream-oriented delivery processes, disciplinary development of an interdisciplinary consulting team. Acquisition and delivery of complex IT transformation projects.

EARLIER POSITIONS

Sep 2019 – Mar 2021	Lead Product Manager (IT, Cloud, Logistics)	Durstexpress GmbH, Berlin
Jun 2016 – Nov 2017	Team Lead Digitalisation Consulting	adesso SE, Dortmund
Jan 2014 – Apr 2016	Head of Research Group Mobile Applications & Processes	University of Duisburg-Essen

EDUCATION

PhD Dr. rer. nat. SUMMA CUM LAUDE	2017
Model-based Automation of Tests for Context-Sensitive Mobile Applications · University of Duisburg-Essen	
Diplom (MSc) Computer Science	2009
University of Leipzig · Minor: Philosophy
