

Dr. Tobias Griebe

HEAD OF PRODUCT & ENGINEERING · SCALING ENGINEERING ORGANISATIONS · DIGITAL PRODUCT STRATEGY

Goethestraße 10 · 15345 Eggersdorf · 0159 06303187 · griebe.tobias@gmail.com

EXECUTIVE PROFILE

PhD computer scientist and leader with over 15 years of progressive responsibility at the intersection of product and engineering. I combine strategic product thinking — roadmap management, product portfolio governance, stakeholder alignment at programme and C-level — with engineering excellence in cloud architectures, DevOps, and scalable organisational design. In my current role I simultaneously own a technical product line of four platform products at programme level for a DAX-listed company, and the engineering strategy and delivery of a sovereign developer platform. At sevDesk GmbH I built a growing engineering organisation from the ground up: career framework, engineering manager coaching, DORA metrics as delivery instrumentation, and structured discovery processes as the bridge between product and engineering. My approach: product and engineering as an integrated discipline, not parallel silos.

CORE COMPETENCIES

STRATEGY & ARCHITECTURE

Cloud-first / API-first target architectures · Enterprise Architecture · Microservices & platform strategy · IT roadmaps & OKRs · Application landscape modernisation

LEADERSHIP & ORGANISATION

Disciplinary leadership of 50+ people · Engineering Manager coaching · Career framework & performance management · Recruiting & retention · Agile governance & value stream structures

TECHNOLOGY & OPERATIONS

AWS · Kubernetes / Docker · Red Hat OpenShift · Spring Boot / Kotlin · DevOps · CI/CD · GDPR-compliant cloud infrastructure

METHODS & COMMUNICATION

Scrum · Kanban · OKR · C-level stakeholder management · Agile transformation · Portfolio & project prioritisation by business value

WORK EXPERIENCE

since 12/2025

Head of Consulting — Cloudfactory GmbH

Strategic consulting and product mandate with **50Hertz Transmission GmbH / Elia Group**: as *Product Line PM Lead*, accountable for strategy, roadmap, and launch of 4 technical platform products within a sovereign cloud platform; as *Platform Engineering Lead*, responsible for developer platform strategy and delivery. Reporting line up to CIO level.

02/2023 – 11/2025

Engineering Director — sevDesk GmbH, Offenburg

Strategic and disciplinary responsibility for two of three R&D pillars (Platform Engineering and Growth & Retention) with **6 Engineering Managers and 40+ developers**. Established company-wide career framework and performance management system. Led application modernisation programme on Kubernetes/Docker in AWS and a GitLab-to-GitHub migration under a rigorous DevSecOps approach.

04/2021 – 01/2023

Head of Software Development and Platform Architecture — Würth Cloud Services GmbH, Bad Mergentheim

Led engineering operations and development of a complex IT landscape in the Würth Group corporate context. Defined target architecture for a scalable, hybrid-capable system landscape (Red Hat OpenShift, Kubernetes) in the corporate data centre. Built and led cross-functional engineering teams through the full employee lifecycle.

EDUCATION

04/2017

Doctorate Dr. rer. nat. / PhD — *summa cum laude*

“Method and Technology for Model-based Automation of Software Tests for Context-Aware Mobile Applications”

SKILLS

LANGUAGES

German (native), English (fluent)
