

Dr. Tobias Griebe

ENGINEERING DIRECTOR · IT DEPARTMENT HEAD

Goethestraße 10 · 15345 Eggersdorf · 0159 06303187 · griebe.tobias@gmail.com

EXECUTIVE PROFILE

PhD computer scientist (Dr. rer. nat., summa cum laude) and seasoned IT leader with over 15 years of progressive management responsibility in technology-driven organisations at varying stages of maturity. I combine deep engineering expertise in software architecture, cloud platforms, DevOps and API ecosystems with sustainable people leadership and strategic IT management. My strength lies in driving IT transformation not as an end in itself, but as a measurable lever for business growth, operational stability and innovation capacity. I lead IT organisations from team-building through target architecture to governance, communicating confidently at C-level and with cross-functional stakeholders.

CORE COMPETENCIES

STRATEGY & ARCHITECTURE

Cloud-first / API-first target architectures · Enterprise Architecture · Microservices & platform strategy · IT roadmaps & OKRs · Application landscape modernisation

LEADERSHIP & ORGANISATION

Disciplinary leadership of 50+ people · Engineering Manager coaching · Career framework & performance management · Recruiting & retention · Agile governance & value stream structures

TECHNOLOGY & OPERATIONS

AWS · Kubernetes / Docker · Red Hat OpenShift · Spring Boot / Kotlin · DevOps · CI/CD · GDPR-compliant cloud infrastructure

METHODS & COMMUNICATION

Scrum · Kanban · OKR · C-level stakeholder management · Agile transformation · Portfolio & project prioritisation by business value

CAREER HIGHLIGHTS

since 12/2025

Head of Consulting — Cloudfactory GmbH

Consulting mandate with strategic enterprise partners, incl. **50Hertz Transmission GmbH / Elia Group**, on scalable digital developer platforms. Responsible for platform strategy, delivery management, and executive-level client communication.

02/2023 – 11/2025

Engineering Director — sevDesk GmbH, Offenburg

Strategic and disciplinary responsibility for two of three R&D pillars (Platform Engineering and Growth & Retention) with **6 Engineering Managers and 40+ developers**. Established company-wide career framework and performance management system. Led application modernisation programme on Kubernetes/Docker in AWS and a GitLab-to-GitHub migration under a rigorous DevSecOps approach.

04/2021 – 01/2023

Head of Software Development and Platform Architecture — Würth Cloud Services GmbH, Bad Mergentheim

Led engineering operations and development of a complex IT landscape in the Würth Group corporate context. Defined target architecture for a scalable, hybrid-capable system landscape (Red Hat OpenShift, Kubernetes) in the corporate data centre. Built and led cross-functional engineering teams through the full employee lifecycle.

11/2017 – 08/2019

Head of Competence Center Digitalization — adesso SE, Dortmund

Strategic IT consulting for enterprise clients: make-or-buy decisions, cloud-native microservices architecture design, disciplinary build-up of an interdisciplinary consulting team (10–20 people). Acquisition and delivery of complex IT transformation projects.

EARLIER POSITIONS

09/2019 – 03/2021

Lead Product Manager (IT, Cloud & Logistics) — Durstexpress GmbH, Berlin

06/2016 – 11/2017

Team Lead Digitalisation Consulting — adesso SE, Dortmund

01/2014 – 04/2016

Team Lead Mobile Applications & Processes — paluno / University of Duisburg-Essen

07/2010 – 01/2014

Research Associate Software Engineering — paluno / University of Duisburg-Essen

EDUCATION

04/2017

Doctorate Dr. rer. nat. / PhD — summa cum laude

“Method and Technology for Model-based Automation of Software Tests for Context-Aware Mobile Applications”
